## Graduate Professional Development Credit hours

Upon completion of our 30-40 hour Basic Language Course, participants can register for 2 professional development credit hours for an additional \$110 fee.

## ORTON GILLINGHAM LEVEL 1 PRACTICUM EXTENSION

Upon completion of the Level 1 Course requirements, Level 1 alumni will qualify for our optional Practicum Extension for certification. This Practicum Extension involves 100+ hours of practicum supervised by an Orton Gillingham specialist. The practicum participant will select a student with whom he or she can complete 100+ lessons, and will be assigned a supervisor. All communication with the supervisor will be via phone, email, or Zoom. Practicum participants will submit videos of lessons, and email copies or photos of lesson plans, student artifacts, and reflections.

"I just wanted to share with you the positive experience I have had so far taking the Level One OG Practicum Extension. I have been teaching for 14 years, have a Special Education Degree and a Masters in Literacy. However, I still didn't feel like I could really help children with dyslexia. I was missing a piece of the puzzle... until I started the OG Basic Language Level Course. That course was very helpful & the OG Practicum Extension was invaluable. Videos are required to be sent in and that is where I feel the learning for myself has really taken place. Mary Flick Binnion and Marisa Bernard who have a wealth of experience has helped me so much as a reading teacher. The innovative ideas, positive feedback, along with suggestions for improvement are helping me become a better teacher and providing top notch instruction that these children so desperately deserve. I feel now, that I really know how to teach children to read and spell. Thank you so much!" - Marcy (Reading Teacher from Dubai)

### PORTFOLIO

The portfolio provides an opportunity for the participant to summarize the experience and to reflect on knowledge and insight gleaned during the practicum. This portfolio will contain completed lesson plans, student artifacts, supervisor feedback, and benchmark data.
